

TEST ON ATEC RANGES

WHY USE ATEC RANGES?

Unique, State-of-the-Art Environments

- Access to world-class, one-of-a-kind test ranges, facilities, and capabilities
- Specialized realistic environments for rapid prototyping, system components, and full-scale experiments

Cost-Effective Testing Solutions

- Competitive, affordable rates tailored to the needs of private industry
- Customizable pricing models and collaborative support to help meet budget/project constraints

Support for Innovation and Rapid Iteration

- Conduct experimentation and data-driven testing at all stages of development
- Opportunities for real-time feedback and early integration with Army decision-makers

Extensive Industry and Government Partnerships

- Collaboration opportunities with defense organizations to test the latest technologies
- Increased visibility with key stakeholders and potential customers

DUGWAY PROVING GROUND

Dugway, UT

- Chem/Bio Surety Materiel & Testing, Expansive Range and Airspace for Testing Across all Commodities

WHITE SANDS MISSILE RANGE

White Sands, NM

- Air & Missile Defense, Nuclear Effects, Directed Energy, Non-Line of Sight Missiles, UAS/C-UAS/Launched Effects

ELECTRONIC PROVING GROUND

Fort Huachuca, AZ

- C5ISR, Networks, EW, Expansive Range and Airspace for Testing Across all Commodities

ABERDEEN TEST CENTER

Aberdeen Proving Ground, MD

- Automotive, Live Fire, Direct Fire, Engineer Equipment, Soldier Systems

REDSTONE TEST CENTER

Redstone Arsenal, AL

- Line of Sight Missiles & Rockets, Guidance & Aircraft Systems, Shoulder-Fired Weapons, Sensors

TROPIC REGIONS TEST CENTER

Panama

- Full-Spectrum Tropical Regions Natural Environment Testing

ARCTIC REGIONS TEST CENTER

Fort Greely, AK

- Full-Spectrum Arctic Regions Natural Environment Testing

YUMA PROVING GROUND

Yuma, AZ

- Indirect Fire, Air Delivery, Rotary Wing Aircraft Armaments, C-IEDs, Natural Environments, UAS/C-UAS/Launched Effects

TEST ON ATEC RANGES

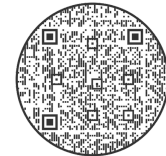

The U.S. Army Test and Evaluation Command (ATEC) invites partners in private industry, academia, and other government agencies to leverage our premier, world-class test and evaluation infrastructure. ATEC's national test ranges are available for use by external organizations to support your internal research, development, test, and evaluation activities.
